

# HULK™ SYSTEM-109LF

**100%  
Active!**  
*Single Source  
Hyper-Concentrate*

## FORMULATION BASE

### HULK SYSTEM SOLO PROGRAM DESCRIPTION

The Hulk System Program was formulated as replacement technology for consumers who purchase large quantities of detergents in bulk tanks, totes, or multiple drums. It utilizes the latest chemical technology to simplify the transportation, storage, and use of detergents while drastically reducing all associated costs.

The Hulk System Solo Program is our latest introduction into the Hulk family. This new series of Hulk formulations utilizes not two, but one single 100% active formulation base to deliver its cost-slashing benefits. Special new technology allows us to manufacture this formulation without sacrificing product effectiveness.

### ABOUT THIS FORMULATION

**Hulk System #109 Low Foam** Formulation Base is a 100 % active hyper-concentrate designed exclusively for use through the Hulk System Solo Detergent Dispenser. When used as directed, this material will produce large quantities of concentrated detergent. This newly produced concentrated product is comparable to many competitive concentrates and may be further diluted prior to use.

**Hulk System #109 Low Foam** Formulation Base was designed to produce an effective concentrated material that will meet or exceed the tightest standards for employee safety and/or adverse environmental impact. It only utilizes components that are readily biodegradable.

### NOTICE

**Hulk System #109 Low Foam** Formulation Base is a 100% active, raw material hyper-concentrate. It is designed for use exclusively with the Hulk System Solo Detergent Dispensing Unit. Other use is prohibited unless authorized by the manufacturer. Customized dilution programs are available; consult your Wechem technical sales representative for details.

**KEEP OUT OF REACH OF CHILDREN.**

FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY.

SEE RIGHT PANEL FOR ADDITIONAL CAUTIONS  
AND FIRST AID STATEMENTS.

### WARNING: CORROSIVE MIXTURE

Prolonged contact of concentrated product with skin and/or eyes can cause chemical burns. Inhalation of high mist concentration can cause irritation, burns, nausea, and vomiting. Harmful or fatal if swallowed. Do not take internally.

### FIRST AID

**SKIN:** Wash with soap and water. If irritated, seek medical attention.

**EYES:** Flush with water for 15 minutes. Seek medical attention.

**INGESTION:** DO NOT INDUCE VOMITING. Drink two large glasses of water. Get immediate medical attention.

**INHALATION:** Remove to fresh air. Resuscitate if necessary. Get medical attention.

**CONTAINS:** Glycol/Surfactant Mixture .....  
**CAS#:** 111762
