

DESCRIPTION:

FLASH heavy duty wheel cleaner and brightener works fast to strip away heavy road film, break pad dust and oxidation. The powerful chemical action of **FLASH** breaks the bond between surface and soil eliminating the need for scrubbing or brushing. Super fast acting!

DIRECTIONS:

Depending on soil conditions dilute Flash from 5 to 15 times with water before use.*

Manual Cleaning: Apply diluted material to the rims and spokes using an acid resistant sprayer, allow 10 to 15 seconds contact time. Rinse surface thoroughly with high pressure water.

Tunnel Cleaning: Apply diluted material to rims and spokes using an acid resistant sprayer just prior to vehicle entering automated tunnel washing process. Allow tunnel cleaning process to thoroughly rinse surface. Do not allow product to dry on surface prior to entering tunnel.

** We strongly recommend that a proportioning dispenser and an acid resistant sprayer be utilized to properly and safely dilute and use Flash. Consult your Wechem technical sales representative for dilution equipment recommendations. Do not use on highly polished metal surfaces. Do not allow product to dry on treated surface.*

UNIT OF MEASURE: U.S. GALLONS

FLASH™

Professional Strength Heavy Duty Wheel Cleaner and Brightener

Fast Acting Brushless Formula

Danger! Causes Severe Burns!

CAUTION:

KEEP OUT OF REACH OF CHILDREN.

FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY.
