

**DESCRIPTION:**

**Fleet-100** is the first step in a two-step cleaning system designed to be used with the Wechem two-step, cold water, high-pressure washer. This system was designed to clean heavy-duty equipment and over-the-road trucking equipment, such as truck trailers. When used as directed, this system is the most efficient cleaning system available today.

**DIRECTIONS:**

Place the #1 suction hose directly into container. The pressure cleaning system will automatically dilute concentrate to the proper cleaning strength. Apply **Fleet-100** onto a dry vehicle surface from the bottom up. Avoid contact with glass surfaces.

**Note:** This product contains Hydrofluoric Acid and should not be used on glass, polished or anodized aluminum surfaces. Clean these surfaces with **Fleet-200** only.
