MINERAL BLAST

RUST & SCALE REMOVER

- *Non-corrosive to skin*
- *Less-corrosive to metal than acids*
- *Non-fuming*
- *Pleasant odor*
- *Not Regulated by D.O.T.*
- *Biodegradable*
- *Contains built-in degreaser*

WARNING

KEEP AWAY FROM CHILDREN.
FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY.
(SEE RIGHT PANEL FOR ADDITIONAL CAUTIONS AND FIRST AID STATEMENTS.)

UNITS OF MEASURE: U.S. GALLONS 6/11

WARNING:

Avoid contact. Skin and eye irritant. Harmful if absorbed through skin. Provide good ventilation.

FIRST AID:

EYES: Irrigation of the eye immediately with water for ten minutes is good safety practice.

SKIN: Wash off in flow water or shower. Wash clothing before reuse.

INHALATION: Remove to fresh air if effects occur. If respiration stops, give mouth-to-mouth resuscitation. Administer oxygen if available. Call physician and/or transport to medical facility.

INGESTION: Seek medical attention. Unless advised otherwise, induce vomiting, by giving either syrup of ipecac followed by 2 glasses of water or by sticking finger down throat. Do not give anything by mouth if person is drowsy, unconscious or has no gag reflex.

Mineral Blast represents a new, safe technology in a low pH solution that performs as well as many acids without the health and safety concerns associated with muriatic acid. Use **Mineral Blast** to remove concrete, lime deposits, and rust stains from ready-mix vehicles, tools equipment and boats.

DIRECTIONS:

For light scale, lime, scum and oxide build-ups, dilute 1 part with 2 to 4 parts water. For moderate to heavy build-up of concrete, use 50/50 with water or full-strength, if needed. Saturate surfaces to be cleaned with low-pressure spray. Allow product to work before brushing, then rinse with high-pressure water. Do not allow solution to dry on surface.

Protective Equipment:

Respiratory Protection: An approved respirator is advised if engineering or administrative controls are not in place to reduce exposure.

Ventilation: Provide sufficient ventilation.

Protective gloves: Chemical resistant such as nitrile or rubber.

Eye protection: Safety glasses/Splash goggles.

Exposure Guidelines/Other:

Hygienic work practices: Wash with soap and water before handling food.
