

DESCRIPTION

MIRACOIL represents the latest technology for chemical cleaning of condenser coils. It contains a blend of oxidation-removing acidic compounds, synthetic detergents and polar solvents. This combination ensures complete removal of a wide variety of soils, including: oxides, salts, grease, oil, dirt and other airborne contaminants. It allows the user to clean without high pressure. **MIRACOIL** penetrates deep into coils and then generates an expanding foam which pushes contaminants outward for easy removal.

DIRECTIONS

MIRACOIL should be applied to surfaces through an acid resistant sprayer. To clean, set a sprayer to deliver a coarse spray, coating coils liberally. Allow to soak for five minutes and flush thoroughly with water.

LIGHT SOIL - Dilute 1 part **MIRACOIL** with 5 parts water.

MEDIUM SOIL - Dilute 1 part **MIRACOIL** with 2 parts water.

HEAVY SOIL - Apply full strength or dilute 1 to 1 with water.

SUPERIOR SOLUTIONS

MIRACOIL™

ACID BASED COIL CLEANER

- **CLEANS & DEOXIDIZES**
- **INCREASES OPERATING EFFICIENCY**
- **RETARDS FUTURE OXIDATION**
- **BIODEGRADABLE & NON-FLAMMABLE**

DANGER
CAUSES SEVERE BURNS
KEEP OUT OF REACH OF CHILDREN.
FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY.
(SEE RIGHT PANEL FOR ADDITIONAL CAUTIONS AND FIRST AID STATEMENTS.)

NET CONTENTS: U.S. GALLONS

3/11

DANGER - POISON

To use this product, the following requirements are necessary:

1. Use a face shield, rubber gloves, rubber apron and rubber boots.
2. Have adequate ventilation
3. Avoid eye and skin contact
4. Do not breathe spray mist
5. When spraying, use NIOSH approved respirator system
6. Shower or water hose should be available

FIRST AID

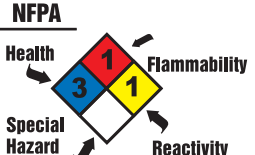

EYES: Speed of action is of primary importance. Flush with water for at least 15 minutes and call a physician.

SKIN: Wash with large amounts of soap and water. If irritation persists, seek medical attention.

INGESTION: DO NOT INDUCE VOMITING. Dilute by drinking water. Get immediate medical attention.

INHALATION: Remove to fresh air. Resuscitate if necessary. Oxygen may be administered if available. Get medical attention. Never give anything by mouth to an unconscious person.

CONTAINS	CAS#
Hydrofluoric Acid.....	7664-39-3
Phosphoric Acid.....	7664-38-2
Ethylene Glycol Monobutyl Ether.....	111-76-2

NFPA	HAZARD RATING:
	4-EXTREME 3-HIGH 2-MODERATE 1-SLIGHT 0-INSIGNIFICANT

Proper Shipping Name:
Corrosive Liquids, Toxic, N.O.S. (Hydrofluoric Acid)
(Phosphoric Acid), 8, UN 2922, PG II
