

**DESCRIPTION:**

**Maximum Flexibility:** Pronto is a super fast acting product that provides professionals with maximum operational flexibility. Depending upon dilution rate Pronto may be used as a drying agent or as a clear coat sealant.

**Fast Acting:** Pronto was specially formulated to remove water from the surface of the vehicle in the quickest possible time. Use Pronto to drastically reduce manual drying.

**Maximum Shine:** Pronto contains special gloss amplifiers which enhances the gloss level of a vehicle's finish even in the coldest of weather.

**DIRECTIONS:**

Pronto may be used in high or low pressure applications. Dilute Pronto with enough cold water to completely cover vehicle. Actual dilutions will vary depending upon operating conditions and the type of equipment used.

**RECOMMENDED STARTING DILUTIONS:**

**Drying Agent:** Use ¼ to 1 ounce Pronto per vehicle.

**Clear Coat Sealant:** Use 1 to 1 ½ ounces per vehicle.

**Forms a Stable Pre-Mix:** Pronto may be pre-diluted prior to use. Add 5 gallons of Pronto to 50 gallons of water and then inject into system. Pronto pre-mix consumption rates will vary, but typically will fall between 2.5 to 10 ounces per vehicle.

No Spotting • No Streaking

Super Fast Drying

UNIT OF MEASURE: U.S. GALLONS

# PRONTO™

## Sealant and Drying Agent

### Highly Concentrated Contains Gloss Amplifiers
