DOT NAME: Cleaning Compounds, Liquid N.O.I.

DESCRIPTION: Wechem's SKIN PROTECTOR CREAM is specially formulated and developed to protect your skin against oil, grease, ink, carbon, sealers, adhesives, lacquer, paint, and solvents from penetrating deep into the skin's pores. **S.P.C.** dissolves only when washed off with water. All dirt on your skin will be removed in the process. **S.P.C.** contains emollients and moisturizers to soothe the skin without use of silicones.

DIRECTIONS: Rub a small amount of S.P.C. into the hands and wrist. Rub well around fingernail until hands are completely dry.
