SOLU-CUT™
SOLUBLE OIL FOR METAL CUTTING & GRINDING

DESCRIPTION

SOLU-CUT soluble oil is a specially compounded emulsifying product composed of a highly refined base oil and special emulsifying agents. It mixes readily with hot or cold water. It forms homogeneous and stable emulsions which show no apparent separation after long periods of usage or storage. **SOLU-CUT** also contains special preservatives which will not allow this product to sour and become rancid.

DIRECTIONS

SOLU-CUT soluble oil is usually diluted in oil/water ratios ranging from **1:10** to **1:60**. Because there are so many variables to be considered from job to job, it is impractical to make a specific recommendation of optimum oil to water ratios. However; in general, the richer emulsions are used for the more difficult jobs, the intermediate for the free-matching metals and the lean mixtures are used for such operations as grinding, where massive cooling is required.

CAUTION

May be harmful if swallowed. Wash thoroughly after handling. May cause eye irritation. Avoid contact with eyes. May cause skin irritation. Avoid contact with skin and clothing. Wash thoroughly after handling.

FIRST AID

EYES: Flush with water for 15 minutes. If irritated, seek medical attention.
SKIN: Wash with soap and water. If irritated, seek medical attention.
INHALATION: Remove to fresh air. Resuscitate if necessary. Seek medical attention.
INGESTION: Do not induce vomiting. Get immediate medical attention. Never give anything by mouth to an unconscious person.

CONTAINS:		CAS #
Diethylene Glycol.....	111-46-6	
2-Butoxyethanol.....	111-76-2	
NFPA		HAZARD RATING:
Health	1	4-EXTREME
Specific Hazard	0	3-HIGH
		2-MODERATE
		1-SLIGHT
Proper Shipping Name: Petroleum Oils, Greases		

READ MATERIAL SAFETY DATA SHEET BEFORE USE.
