

# SUPER BLAST™

## FINISH

## Super Blast Concentrate

### DESCRIPTION

**SUPER BLAST™** is a highly effective non-alkaline detergent system. It was formulated to meet or exceed the tightest standards for employees' safety and/or adverse environmental impact. It is neutral in pH, and only utilizes components that are readily biodegradable.

Since this material is non-corrosive it may be used to remove unwanted soils and contaminants from nearly any water-safe surface, including those that are painted. \*Special ingredients make this formulation especially effective at removing unwanted petroleum hydrocarbon soils from virtually any surface.

**SUPER BLAST™** formulation utilizes one single 100% active formulation base to deliver its cost-slashing benefits. Special new technology allows us to manufacture this formulation without sacrificing product effectiveness.

This product is specifically designed for multi-use cleaning of industrial surfaces. It is suited for use with steam cleaners, pressure washers, floor cleaning equipment and manual cleaning operations. This product is in concentrated form and may be diluted with water prior to use. Degree of product strength necessary to clean is directly related to the type of soil being removed and the degree of buildup. Adjust dilution level until achieving optimal cleaning results.

### OIL/WATER SEPARATOR SAFE:

**SUPER BLAST™** contains special surface-active agents that only temporarily suspend hydrocarbon-based soils allowing for quick phase separation. This product is ideally suited for consumers who are attempting to capture hydrocarbons from their cleaning water discharge with oil/water separators. \* If special concern is warranted for a painted surface, Wechem recommends pre-testing on a small area prior to wide scale use.

### WARNING

#### KEEP OUT OF REACH OF CHILDREN

FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY  
(SEE RIGHT PANEL FOR ADDITIONAL CAUTIONS AND FIRST AID STATEMENTS.)

UNIT OF MEASURE: U.S. GALLONS    BATCH #

### FIRST AID

Keep away from excessive heat and all ignition sources. Prolonged contact with skin can cause irritation, drying and cracking. Repeated contact with eyes can cause irritation and reddening. Inhalation may cause irritation of nose, throat and the central nervous system. Ingestion may cause irritation of digestive tract and central nervous system effects. Do not take internally.

**SKIN:** Wash with soap and water. If irritated, seek medical attention.

**EYES:** Flush with water for 15 minutes. Seek medical attention.

**INGESTION:** DO NOT INDUCE VOMITING. Drink two large glasses of water. Get immediate medical attention.

**INHALATION:** Remove to fresh air. Resuscitate if necessary. Get medical attention.
