

# SUPER BLAST™

Powered by the HULK SYSTEM®  
FORMULATION BASE

100%  
Active!

*SUPER BLAST™ Hyper-Concentrate*

## HULK SYSTEM® SOLO PROGRAM

### DESCRIPTION

The HULK SYSTEM® Program was formulated as replacement technology for consumers who purchase large quantities of detergents in bulk tanks, totes, or multiple drums. It utilizes the latest chemical technology to simplify the transportation, storage, and use of detergents while drastically reducing all associated costs.

SUPER BLAST™ formulation utilizes one single 100% active formulation base to deliver its cost-slashing benefits. Special new technology allows us to manufacture this formulation without sacrificing product effectiveness.

## ABOUT THIS FORMULATION

SUPER BLAST™ Formulation Base is a 100% active hyper-concentrate designed exclusively for use through the Hulk System Solo Detergent Dispenser. When used as directed, this product will produce large quantities of concentrated detergent. This newly developed concentrated product is comparable to many competitive concentrates and may be further diluted prior to use.

SUPER BLAST™ Formulation Base was designed to produce an effective, concentrated material that will meet or exceed the highest standards for employee safety and/or adverse environmental components that are readily biodegradable.

### NOTICE

SUPER BLAST™ Formulation Base is a 100% active, raw material hyper-concentrate. It is designed for use exclusively with the Hulk System Solo Detergent Dispensing Unit. Other use is prohibited unless authorized by the manufacturer. Customized dilution programs are available; consult your Wechem technical sales representative for details.

**WARNING: COMBUSTIBLE**  
**KEEP OUT OF REACH OF CHILDREN**

FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY  
(SEE RIGHT PANEL FOR ADDITIONAL CAUTIONS AND FIRST AID STATEMENTS.)

UNIT OF MEASURE: U.S. GALLONS BATCH #

## FIRST AID

Keep away from excessive heat and all ignition sources. Prolonged contact with skin can cause irritation, drying and cracking. Repeated contact with eyes can cause irritation and reddening. Inhalation may cause irritation of nose, throat and the central nervous system. Ingestion may cause irritation of digestive tract and central nervous system effects. Do not take internally.

**SKIN:** Wash with soap and water. If irritated, seek medical attention.

**EYES:** Flush with water for 15 minutes. Seek medical attention.

**INGESTION:** DO NOT INDUCE VOMITING. Drink two large glasses of water. Get immediate medical attention.

**INHALATION:** Remove to fresh air. Resuscitate if necessary. Get medical attention.
