

DESCRIPTION:

Tire Nu is a concentrated white side wall tire cleaner that is used straight or diluted with water for greater economy. This new formulation speeds tire cleaning to a new efficiency. Tire Nu saves you time, money and labor. Tire Nu contains no harmful chemicals to damage tires in any way.

DIRECTIONS:

For maximum efficiency, treat two tires simultaneously. Apply Tire Nu by spraying or wiping on surface. Completely wet the first tire then proceed to the second and apply cleaner. Return to the first tire and brush all areas if necessary. In the few seconds the cleaner remains on the surface, dirt and soil have been lifted from the white sidewall, facilitating removal of even the most difficult stains with only mild rubbing. After completion of the first tire, proceed to the second tire and repeat process. After both tires have been cleaned, rinse thoroughly with water.

ADDITIONAL USES:

Use full strength to clean and degrease engines and under carriages. For best results apply to warm engine or under carriage and allow to soak for 5 to 10 minutes. After soil is loosened, flush with clean water to rinse.

Tire Nu is also excellent for cleaning rubber floor mats. For best results wet floor mat first with clean water. Then apply chemical solution and allow to stand for a few moments, scrub if necessary. Rinse with clean water.

UNIT OF MEASURE: U.S. GALLONS

TIRE NU™

White Sidewall Tire Cleaner

- ◆ Cleans with labor saving speed
- ◆ Little or no scrubbing necessary

**KEEP OUT OF REACH OF CHILDREN.
