

# HULK SYSTEM™ FS250 Formulation Base

Food Service  
Hulk Solo Program

**100% Active!**  
Single Source  
Hyper-Concentrate

## HULK SYSTEM SOLO PROGRAM DESCRIPTION

The Hulk System Program was formulated as replacement technology for consumers who purchase large quantities of detergents in bulk tanks, totes, or multiple drums. It utilizes the latest chemical technology to simplify the transportation, storage, and use of detergents while drastically reducing all associated costs.

The Hulk System *Solo* Program is our latest introduction into the Hulk family. This new series of Hulk formulations utilizes not two, but one single 100% active formulation base to deliver its cost-slashing benefits. Special new technology allows us to manufacture this formulation without sacrificing product effectiveness.

## ABOUT THIS FORMULATION

Hulk System FS 250 Formulation Base is a 100% active hyper-concentrate designed exclusively for use through the Hulk System *Solo* Detergent Dispenser. When used as directed, this material will produce large quantities of concentrated detergent. This newly produced concentrated product is comparable to many competitive concentrates and may be further diluted prior to use.

Hulk System FS 250 Formulation Base was designed to produce an effective concentrated material that will meet or exceed the tightest standards for employee safety and/or adverse environmental impact. It only utilizes components that are readily biodegradable.

## NOTICE

Hulk System FS 250 Formulation Base is a 100% active, raw material hyper-concentrate. It is designed for use exclusively with the Hulk System *Solo* Detergent Dispensing Unit. Other use is prohibited unless authorized by the manufacturer. Customized dilution programs are available; consult your Wechem technical sales representative for details.

## DIRECTIONS FOR USE

Consult with your Wechem representative to set the proper chemical injection setting through the Hulk Detergent Dispenser. Fill buckets, containers, foaming equipment for general applications.

This product is acceptable for use as a general cleaner (A1) on all surfaces in and around food processing areas, not intended for direct food contact.

Nonfood Compounds  
Program Listed (Category A1)  
Registration # 139508

**KEEP OUT OF REACH OF CHILDREN.**  
FOR INDUSTRIAL AND INSTITUTIONAL USE ONLY.  
SEE RIGHT PANEL FOR ADDITIONAL CAUTIONS AND  
FIRST AID STATEMENTS.

## FIRSTAID:

**EYE CONTACT:** Flush with water for 15 minutes. Seek medical attention. **SKIN CONTACT:** Wash with soap and water. If irritated seek medical attention. **INHALATION:** Remove to fresh air. Resuscitate if necessary. Get medical attention. **INGESTION:** Do not induce vomiting. Get immediate medical attention.

## WARNING: CORROSIVE MATERIAL.

Prolonged contact of concentrated product with skin and/or eyes can cause chemical burns. Inhalation of high mist concentrations can cause irritation, burns, nausea and vomiting. Harmful or fatal if swallowed. Do not take internally.

**CAUTION:** All food products and packaging materials shall be removed or carefully protected prior to usage. A potable water rinse is required after use.
