D-Germ TB Ready to Use Spray & Wipe Germicidal Cleaner is designed specifically as a general non-acid cleaner and disinfectant for use in homes, hospitals, nursing homes, schools, office buildings and manufacturing facilities where housekeeping is of prime importance in controlling the hazard of cross contamination. It is formulated to disinfect hard, non-porous, inanimate environmental surfaces: floors, walls, metal surfaces, stainless steel surfaces, glazed porcelain, glazed ceramic tile, plastic surfaces, bathrooms, shower stalls, bathtubs, and cabinets. **For plastic and painted surfaces, spot test on an inconspicuous area before use.** May be used in the kitchen on counters, sinks, appliances and stovetops. A rinse with potable water is required for surfaces in direct contact with food. In addition, this product deodorizes those areas that generally are hard to keep fresh smelling, such as garbage storage areas, empty garbage bins and cans, basements and other areas which are prone to odors caused by microorganisms. When used as directed, D-Germ TB Ready to Use Spray & Wipe Germicidal Cleaner contains 2100 ppm of active germicide making it highly effective against a wide variety of pathogenic microorganisms including bacteria, antibiotic resistant bacteria, viruses, fungi, mold and mildew.
